REPORT FOCUS

The 'Biobanking: Applications - A Global Market Watch, 2009-2015' reviews the latest trends in biobanking sector with a perceptiveness to disclose the near-future growth prospects in. An in-depth analysis across the geographic regions provides strategic business intelligence for life science and as well as healthcare sector investments. The study offers profitable investment strategies for R&D organizations, pharmaceutical manufacturers, biotechnology companies, laboratories, Contract Research Organizations (CROs) and many more in preferred locations.

“Learn High Potential Market Dynamics for Strategic Business Planning”

The report focuses on the current market trends, estimates and forecasts for the period 2009-2015. More than **1100** in biorepositories market and **120** leading market players that project improved market activities in the near future are profiled. The report consists of **176** data charts describing the market shares, sales forecasts and growth prospects. Moreover, key strategic activities in the market including mergers/acquisitions, collaborations/partnerships, product launches/developments are discussed which gives a deep insight into the growth perspectives of the market. Estimates are based on online surveys using customized questionnaires by our research team. Besides information from government databases, company websites, press releases and published research reports are also used for estimates. Estimates have incorporated recessionary impact on the industry. The analysis is based on desk research and interviews with biobank researchers and law/ethics specialists, as well as on data collected through the survey, and discussions with experts.

BIOREPOSITORIES / BIOBANKING

APPLICATIONS - GLOBAL MARKET WATCH:

With a CAGR of 7.9%, global market value for biorepositories market is anticipated to be worth US\$23.9 billion by 2015. On a global scale, North America accounts for more than 30% of the market.

“Getting the Most from Our Research Analysis”

While US accounts for the highest share of the global market value on a country basis, India and China surpasses the US in terms of growth rate anticipated in the near future and leads the world. Share of stem cells market in Biorepositories is forecasted to become nearly 30% by 2015, with a massive CAGR of 18.7%. Among the segments, blood Products market is expected to reach US\$2.8 billion. Our analysis indicates that human and veterinary uses would worth US\$2.6 billion and US\$2.8 billion, respectively by 2015.

GEOGRAPHIC COVERAGE

Incorporating the recession impacts on the industry, the market growth rate in the major economies such as the U.S., Japan and China along with the other emerging countries are estimated individually for the upcoming years. Anticipating a protracted economic recovery towards to 2011 and based on the CAGR estimates and growth potential, we have forecasted the market size figures for the next five years.

The region-wise distribution of the market consists of **North America, Europe, Asia-Pacific and Rest of World** with 22 countries, analyzed individually as follows:

NORTH AMERICA	USA, CANADA & MEXICO
EUROPE	BELGIUM, DENMARK, FRANCE, GERMANY, GREECE, ITALY, SPAIN, SWEDEN, UNITED KINGDOM & REST OF EUROPE ¹
